

HuaYi STEM Camp

HuaYi & i-techlife's STEM Summer Program will take place in June this year! Join us in person Monday – Friday for fun AI programming with MINECRAFT and ROBLOX! The instructors will utilize these fun, popular, and yet powerful platforms to unlock your child's programming potential. Each participant is tasked to perform certain exercises in each class that require some brainstorming, planning, logical thinking, programming, and debugging skills.

Computer Coding Camps

Programming with Minecraft 7/22-7/26 2:30-4:30 \$280+\$15

Programming with Roblox 7/29-8/02 2:30-4:30 \$280

Engineering and Construction Camps

Hands-on engineering and construction camp to develop project design, collaboration, problem-solving, and critical thinking skills. Students will complete their hands-on engineering project from design, and management, to completion.
